

ПОДЯКА

CERTIFICATE OF APPRECIATION

DEAR BROTHERS AND SISTERS,

On behalf of the Federation of Trade Unions of Ukraine, which unites about 3 million Ukrainian workers, I express my sincere respect and gratitude to the **Japanese Trade Union Confederation RENGO** for your fraternal solidarity support of the Ukrainian people and trade unions in the context of Russia's occupation and terrorist war against Ukraine.

During this extremely difficult time of Ukraine's heroic resistance to Russian aggression, more than 15 million Ukrainians were forced to flee their homes, 8 million became migrants, and 5 million lost their jobs and livelihoods due to constant bombing and shelling of cities and villages.

Your support has made it possible for thousands of our citizens in need to receive much-needed assistance and help.

Your good deeds have inspired faith and hope in the victory of good over evil, and have become a significant support for the unconquerable struggle of the Ukrainian people for their independence and territorial integrity. The unity of our countries, the struggle for universal values, freedom and democracy, strengthened by trade union solidarity, is the key to global peace and a better future for our peoples.

Yours sincerely,

President of Federation
of Trade Unions of Ukraine

Grygorii OSOVYI
